### **DETAILED ACTION**

1. This communication is responsive to amendment filed on May 12, 2005. claims 1, 6, 19, 20, 21, 27, 28, 43 were amended. Claims 46 – 52 were cancelled and claims 53 – 59 were newly added.

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 – 37, 54 - 59, drawn to class 709 subclass 212 drawn to Computer to Computer Direct memory Accessing.

Group II, claim(s) 38 – 45, drawn to class 709 subclass 214 drawn to Plural Shared Memory.

The inventions are distinct, each from the other because of the following reasons: Because these inventions are distinct for the reasons given above and the search group required for Group I is not required for group II, restriction for examination purposes as indicated is proper.

Art Unit: 2157

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to non-elected inventions, the inventorship must be amended in compliance with 37CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37CFR 1.48(b) and by the fee required under 37CFR 1.17(i).
